

Zero Waste Summit

SAVE THE DATE

MAY 2, 2013 FROM 8:30AM - 3:30PM, followed by a reception
THE UNIVERSITY OF SOUTHERN CALIFORNIA, LOS ANGELES
TOWN AND GOWN BALLROOM

Join Pegasus Capital Advisors in collaboration with the USC Schwarzenegger Institute to discuss the challenges, opportunities, and investment potential in moving forward to a Zero Waste future.

In a Zero Waste future, products are designed to be easily repurposed, businesses and communities recognize waste as an asset not a liability, and policy makers are engaged in removing barriers. But it is not just limited to what we physically throw away—Zero Waste is also being more efficient in our use of energy, water, and materials so we are not unnecessarily “wasting” valuable resources.

Pegasus Capital Advisors supports a Zero Waste solution that redefines waste as a resource to create new industries, jobs, and technologies. It is a business-oriented approach to community resource management that earns profits and provides a public good.

SUMMIT PARTICIPANTS INCLUDE:

Gov. Arnold Schwarzenegger (invited)
Craig Cogut, Pegasus Capital Advisors
Nestle Waters North America
Walmart (invited)
Whole Foods
US EPA
NRDC
among others
